Robert B. Dudley  
David Halverson

MEMBERS ABSENT  
Dan Smith

### **BUSINESS:**

**MINUTES**  
The August 10, 2005 board meeting minutes were presented for approval. David Told made a motion to accept the minutes as corrected, Gloria Miley seconded, all members voted unanimously to approve the August 10, 2005 board minutes as corrected.

**Review Boards Authority  
Concerning the Construction Services  
Commission**

Dennis Meservy distributed copies of Rule 58-1-201 through 58-1-203 which covers the boards, duties, functions, and responsibilities. Meservy discussed with the board that the plumbing board is an advisory board to the Construction Services Commission. Meservy read over these rules with the board. David Halverson asked that Katie Tris mail out with the minutes a copy of the Plumbing Rules so that they could review the rules at next months meeting.

**Review Test Scores**

Katie Tris went over last months test scores from Thomson Prometric. Katie discussed that we still have a problem with a list titled "*Not Specified*". She stated that Thomson Prometric is not making sure that the testing applicant is specifying what apprenticeship school they attended or if they did not attend school. Katie stated that she will discuss this again with Tim Guerre.

**APPOINTMENT:**

**William Whitehead**

William Whitehead came before the board concerning testing. Whitehead stated that he received a letter to test but he felt that he had been plumbing for over 29 years and did not feel that he should have to take any exams. Whitehead stated that his experience should be enough to gain a license. David Halverson indicated that they had reviewed the two letters that were submitted. Bob Dudley asked Whitehead if he had ever tested on the IPC and he stated that he has not. He indicated that several years ago he took a test on the UPC.

Whitehead stated that he is now working in Arizona and they just issued him a license without testing based on his experience. David Told mentioned that the board follows the rules and they treat all applicants equal and to allow him a license without testing would break how everyone else is treated. After several discussions David Halverson, Chairperson stated that the final decision of the plumbing board was to take the two tests and if he receives a passing score he will be issued the Journeyman's License.

The board reviewed out of state applications. All business concluded, and adjourned.
